

I've made a powerful choice

Bronx Lab School

A COLLEGE PREPARATORY SCHOOL FOR ACADEMIC EXCELLENCE

Choose Your Life

When you choose the Bronx Lab School (BLS), you make a choice that can transform your life. Through an intensive liberal arts education, BLS will prepare you for your future by challenging you to think, to question, to create, to dream, and to achieve.

Our graduates will become critical thinkers — exposed to the adult world of thinking and working — pursuing college and careers and becoming the thoughtful citizens and leaders of tomorrow.

Plan for Your Success

With an ultimate enrollment of just 400 students (*approximately 100 students per class*), BLS offers a small, intimate learning environment that helps students make informed choices about their learning and their lives. Our students participate in:

- An extended school day (8:45 AM – 5 PM) with afternoon activities including drama, dance, filmmaking, athletics, chess, and quilting;
- An extended school year (through July), featuring a residential summer program at the Lawrenceville School in New Jersey;
- A code of conduct that requires students to demonstrate the philosophy embodied by the *Bronx Lab 5* – **Intellectual Courage, Accountability, Respectful Action, Creativity, and Integrity**;
- Internships in the adult world that are chosen by students according to their interests;
- A student-centered school culture defined by mutual respect, one without uniforms, where students and staff address each other by first name;
- Outdoor expeditions that challenge students both mentally and physically.

F·E·G·S
HEALTH AND HUMAN SERVICES SYSTEM

Bronx Lab is a small new Department of Education high school founded in partnership with the Institute for Student Achievement and F·E·G·S Health and Human Services System. BLS is one of six new small schools currently located on the Evander Childs campus.

As of September 2005, Bronx Lab will be the only school located on the 4th floor of the campus.
